Journal of Dentistry, 10, No. 4, 1982, pp. 357–369 *Printed in Great Britain*

INDEX

Volume 10 Numbers 1–4 March–December 1982

Abstracts, 92, 178, 269, 355
Acid-etch technique in children: experience in Lagos, 235
Acrylic resins, some mechanical properties including repair strength of two self-curing, 271
Adams D.: Nasal support prostheses, 131
Adenubi J. O.: The acid-etch technique in children: experience in Lagos, 235
Adrenaline, effects of, on lignocaine nerve block anaesthesia, 140
on lignocaine anaesthesia of isolated nerve, 342
Alloys, amalgam, particle-size analysis and phase content of, 1. Physical metallurgy of dental amalgams, 207
Amalgams, dental, physical metallurgy of, 1. Particle-size analysis and phase content of amalgam alloys, 207
fissure sealants versus: clinical results over five years, 95
Amin W. M.: *see* Moradians S.
Anaesthesia, lignocaine nerve block, effects of adrenaline on, 140
Anaesthetic failures, local, due to increase in sensory nerve impulses from inflammatory sensitization, 201
Analgesia, local, for minor oral surgery, comparison of plain 2 per cent lignocaine and 2 per cent lignocaine with adrenaline in, 136
relative, physiological changes during—clinical study, 55
Anderson R. J.: *see* Rock W. P.
Ariffin Y. T.: *see* Ritchie G. M.

Bagnall R. D., Callis P. D. and Robertson W. D.: An endodontic teaching material simulating cancellous bone, 289
Bedi R. and Crawford A. N.: Assessment of the medical status of Asian immigrant children undergoing dental care, 144
Bone induction in healing tooth sockets using piezo-electric foil, 243
Book Reviews, 81, 166, 265, 353
Braden M. and Wilson A. D.: Relationship between stress relaxation and viscoelastic properties of dental materials, 181
Braden M.: *see* Parker S.
Breast feeding, a possible cause of dental caries, 346
Bridges, Rochette-type adhesive, method for repair of, 198

Callis P. D.: *see* Bagnall R. D.
Cancellous bone, endodontic material simulating, 289
Carcinoma, renal metastatic, of mandible, 103
Caruana P., Pateromichelakis S. and Rood J. P.: The effects of adrenaline on lignocaine nerve block anaesthesia, 140
Caries, dental, caused by breast feeding, 346
Cattell's personality profile in patients who have had preprosthetic surgery, use of, 121
Causton B. E.: *see* Davy K. W. M.
Cements, dental, sensitive conductimetric method for measuring material initially water-leached from. 3 Dental silicate cements, 113
silicophosphate, aqueous erosion of, 187
Children, acid-etch technique in: experience in Lagos, 235
Asian immigrant, undergoing dental care, assessment of medical status of, 144
Chopra P.: *see* Sidhu S. S.
Co-polymer, new acrylic: radio-opaque denture base, 254
Cook C.: *see* Rout P. J.
Cranfield M., Kuhn A. T. and Winter G. B.: Factors relating to the rate of fluoride ion release from glass ionomer, 333
Crawford A. N.: *see* Bedi R.
Crisp S.: *see* Wilson A. D.
Cruikshanks-Boyd D. W.: Physical metallurgy of dental amalgams. 1. Particle-size analysis and phase content of amalgam alloys, 207

Davy K. W. M. and Causton B. E.: Radio-opaque denture base: a new acrylic co-polymer, 254
Denture base, radio-opaque: new acrylic co-polymer, 254
construction, complete, occlusal plane orientation in, 311
sectional, combined magnetic plus rod and tube retention in, 7
Dodd A. W.: *see* Moradians S.
Dummer P. M. H. and Gidden J.: A method for the repair of Rochette-type adhesive bridges, 198

Elderly handicapped patients, delivery of dental care for, 281
persons, provision of dental care for, 44
Elevators, dental, design and construction of, 317
Enamel opacities in primary and high school pupils, 28

Endodontic teaching materials simulating cancellous bone, 289

Fletcher A. M.: *see* Moradians S.
Fluoride ion release from glass ionomer, factors relating to rate of, 333

Gedalia I.: *see* Markitziu A.
Gibson A.: *see* Roberts G. J.
Gidden J.: *see* Dummer P. M. H.
Glass ionomer, fluoride ion release from, factors relating to rate of, 333
Groffman D. M.: *see* Prosser H. J.
Grossman E. and Rothwell P. S.: Aspects of the periodontal condition of temporomandibular joint pain dysfunction patients, 107

Handicapped patients, elderly, delivery of dental care for, 281
Hargraves J. and Hobkirk J. A.: Casting defects in subperiosteal implants: an X-ray investigation, 1
Henking J. P.: Overdentures, 217
Hobkirk J. A.: *see* Hargraves J.
Hopkins R.: *see* Reeve P.

Implants, subperiosteal, casting defects in: an X-ray investigation, 1

Jamison H. C.: *see* Retief D. H.

Kabambe W. M., Rood J. P. and Sowray J. H.: A comparison of plain 2 per cent lignocaine and 2 per cent lignocaine with adrenaline in local analgesia for minor oral surgery, 136
Kandler H. J.: The design and construction of dental elevators, 317
Kuhn A. T.: *see* Cranfield M.

Lewis B. G.: *see* Wilson A. D.
Lignocaine anaesthesia of isolated nerve, effects of adrenaline on, 342
  nerve block anaesthesia, effects of adrenaline on, 140
  plain 2 per cent, and 2 per cent lignocaine with adrenaline, comparison of, in local analgesia for minor oral surgery, 136
  with adrenaline, 2 per cent, comparison of plain 2 per cent lignocaine and, in local analgesia for minor oral surgery, 136
Ling B. C.: Combined magnetic plus rod and tube retention in sectional denture, 7
Lining materials, new soft, 149
Little D. A.: The relevance of prosthodontics and the science of dental materials to the practice of dentistry, 300
Luker J.: The pacemaker patient in the dental surgery, 326

Mandible, renal metastatic carcinoma of, 103
Markitziu A., Gedalia I., Stabholz A. and Shaval J.: Prevention of caries progress in xerostomic patients by topical fluoride applications: a study *in vivo* and *in vitro*, 248
Masticatory cycle in relation to occlusal wear and its treatment, 69
Materials, dental, relevance of prosthodontics and science of, to practice of dentistry, 300
Microleakage of selected composite restorative resins, 292
Mizrahi E.: Enamel opacities in primary and high school pupils, 28
Moradians S., Fletcher A. M., Amin W. M., Ritchie G. M., Purnaveja S. and Dodd A. W.: Some mechanical properties including the repair strength of two self-curing acrylic resins, 271
Mouth, dry, help for patient with, 226

Nasal support prostheses, 131
Nerve impulses, sensory, from inflammatory sensitization, local anaesthetic failures due to an increase in, 201
  isolated, effects of adrenaline on lignocaine anaesthesia of, 342

Occlusal plane orientation in complete denture construction, 311
Occlusal wear and its treatment, masticatory cycle in relation to, 69
Opacities, enamel, in primary and high school pupils, 28
Overdentures, 217

Pacemaker patient in dental surgery, 326
Pain dysfunction patients, temporomandibular joint, aspects of periodontal condition of, 107
  syndrome, evaluation of treatment for, 65
Parkash H.: *see* Sidhu S. S.
Parker S. and Braden M.: New soft lining materials, 149
Pateromichelakis S.: *see* Caruana P.
Pateromichelakis S.: *see* Rood J. P.
Patients, elderly handicapped, delivery of dental care for, 281
Piezo-electric foil, bone induction in healing tooth sockets using, 243
Porter J.: *see* Roberts G. J.
Posts, dental, retention of, 154
Prokopiou A. A.: *see* Rood J. P.
Prosser H. J., Groffman D. M. and Wilson A. D.: A sensitive conductimetric method for measuring the material initially water-leached from dental cements, 3
Dental silicate cements, 113
Prostheses, nasal support, 131
Prosthodontics and science of dental materials to practice of dentistry, relevance of, 300
Purnaveja S.: *see* Moradians S.

Radiography, dental, survey of, in general dental practice, 12
Reeve P., Stafford G. D., Watson C. and Hopkins R.: The use of Cattell's personality profile in patients who have had preprosthetic surgery, 121
Resins, acrylic, some mechanical properties including repair strength of two self-curing, 271
selected composite restorative, microleakage, of 292
Restorative resins, selected composite, microleakage of, 292
Retention, combined magnetic plus rod and tube, in sectional denture, 7
Retief D. H., Woods E. and Jamison H. C.: Microleakage of selected composite restorative resins, 292

Reviews

Atlas of Craniomaxillofacial Surgery (I. Jackson, I. Munro, K. Salyer and L. Whitaker), 353
An Atlas and Manual of Cephalometric Radiography (T. Rakosi), 265
Atlas of Operative Dentistry (W. W. Howard and R. C. Moller), 174
Atlas of Oral Pathology (R. M. Smith, J. E. Turner and M. L. Robbins), 171
An Atlas of Paedodontics (J. M. Davis, D. B. Law and Lewis), 82
The Begg Appliance and Technique (G. G. T. Fletcher), 168
British National Formulatory 1981 No. 1 (ed. G. R. Brown), 88
Clinical Hypnosis in Medicine (ed. H. J. Wain), 170

CONTENTS OF VOLUME 10

NUMBER 1

Casting defects in subperiosteal implants: an X-ray investigation
J. Hargraves and J. A. Hobkirk 1

Combined magnetic plus rod and tube retention in sectional dentistry
B. C. Ling 7

Survey of dental radiography in general dental practice
P. J. Rout and C. Cook 12

Sonographic analysis of speech sounds with varying positions of the upper anterior teeth *G. M. Ritchie and Y. T. Ariffin* 17

Enamel opacities in primary and high school children *E. Mizrahi* 28

A review of published fissure sealant trials using multiple regression analysis
W. P. Rock and R. J. Anderson 39

The provision of dental care for the elderly person *J. Wickens* 44

Physiological changes during relative analgesia—a clinical study
G. J. Roberts, A. Gibson, J. Porter and S. de Zoysa 55

Evaluation of treatment for the pain dysfunction syndrome *J. P. Smith* 65

The masticatory cycle in relation to occlusal wear and its treatment
M. D. Russell 69

Do students cheat—or are they just good guessers? *J. N. Swallow* 78

Book Reviews 81

Abstracts 92

NUMBER 2

Fissure sealants versus amalgams: clinical results over five years
R. J. Smales 95

Renal metastatic carcinoma of the mandible
S. S. Sidhu, H. Parkash and P. Chopra 103

Aspects of the periodontal condition of temporomandibular joint pain dysfunction patients *E. Grossman and P. S. Rothwell* 107

A sensitive conductimetric method for measuring the material initially water-leached from dental cements. 3 Dental silicate cements
H. J. Prosser, D. M. Groffman and A. D. Wilson 113

The use of Cattell's personality profile in patients who have had pre-prosthetic surgery *P. Reeve, G. D. Stafford, C. Watson and R. Hopkins* 121

Nasal support prostheses *D. Adams* 131

A comparison of plain 2 per cent lignocaine and 2 per cent lignocaine with adrenaline in local analgesia for minor oral surgery
W. M. Kabambe, J. P. Rood and J. H. Sowray 136

The effects of adrenaline on lignocaine nerve block anaesthesia
P. Caruana, S. Pateromichelakis and J. P. Rood 140

Assessment of the medical status of Asian immigrant children undergoing dental care *R. Bedi and A. N. Crawford* 144

New soft lining materials *S. Parker and M. Braden* 149

The retention of dental posts *C. H. Turner* 154

Book Reviews 166

Abstracts 178

NUMBER 3

Relationship between stress relaxation and viscoelastic properties of dental materials — *M. Braden and A. D. Wilson* 181
The aqueous erosion of silicophosphate cements — *A. D. Wilson, S. Crisp and B. G. Lewis* 187
A method for the repair of Rochette-type adhesive bridges — *P. M. H. Dummer and J. Gidden* 198
Local anaesthetic failures due to an increase in sensory nerve impulses from inflammatory sensitization — *J. P. Rood and S. Pateromichelakis* 201
Physical metallurgy of dental amalgams. 1. Particle-size analysis and phase content of amalgam alloys — *D. W. Cruickshanks-Boyd* 207
Overdentures — *J. P. Henking* 217
Help for the dry mouth patient — *B. J. Roberts* 226
The acid-etch technique in children: an experience in Lagos — *J. O. Adenubi* 235
Bone induction in healing tooth sockets using piezo-electric foil — *B. W. Roberts* 243
Prevention of caries progress in xerostomic patients by topical fluoride applications: a study *in vivo* and *in vitro* — *A. Markitziu, I. Gedalia, A. Stabholz and J. Shuval* 248
Radio-opaque denture base: a new acrylic co-polymer — *K. W. M. Davy and B. E. Causton* 254
Book Reviews 265
Abstracts 269

NUMBER 4

Some mechanical properties including the repair strength of two self-curing acrylic resins — *S. Moradians, A. M. Fletcher, W. M. Amin, G. M. Ritchie, J. Purnaveja and A. W. Dodd* 271
The delivery of dental care for elderly handicapped patients — *L. Steele* 281
An endodontic teaching method simulating cancellous bone — *R. D. Bagnall, P. D. Callis and W. D. Robertson* 289
Microleakage of selected composite restorative resins — *D. H. Retief, E. Woods and H. C. Jamison* 292
The relevance of prosthodontics and the science of dental materials to the practice of dentistry — *D. A. Little* 300
Occlusal plane orientation in complete denture construction — *D. R. Williams* 311
The design and construction of dental elevators — *H. J. Kandler* 317
Why should students bother to read? — *J. N. Swallow* 323
The pacemaker patient in the dental surgery — *J. Luker* 326
Factors relating to the rate of fluoride-ion release from glass-ionomer cement — *M. Cranfield, A. T. Kuhn and G. B. Winter* 333
The effects of adrenaline on lignocaine anaesthesia of the isolated nerve — *J. P. Rood, S. Pateromichelakis and A. A. Prokopiou* 342
Is breast feeding a possible cause of dental caries? — *J. Roberts* 346
